**Subject:** RE: Aera Carbon Sequestration - follow-up to August 17 2021 Meeting

Hi Susan, at this point it looks like we would be available during the following time blocks:

Th, Jan 6: after 2pm  
Fri, Jan 7: between 9-11am  
Tues, Jan 11: between 10-11:30am

Let us know what works for you and I can send an MS Teams invite. Thanks, David

**Subject:** Aera Carbon Sequestration - follow-up to August 17 2021 Meeting

Hi David,

Aera's Carbon Sequestration Team has been working hard since our initial meeting on August 17: We have deeply studied EPA's ten Class VI guidance documents, put together 79 internal Work Packages within EPA's Class VI Application Work Break Down Structure, all with discreet objectives and deliverables to meet EPA's Class VI requirements. We have used those work descriptions to bring consultants on board to help us. We are about to register onto the Geologic Sequestration Data Tool, which we hope will further describe our deliverables.

At this point, we now have some specific questions regarding permit application deliverables, especially around modeling. We also want to bounce off you some thoughts regarding a potential pathway from Class II to Class VI permit.

We can send you our specific questions in advance. But first, we are hoping to set a meeting date with you. Could you provide a few dates/times in early January 2022 for a Teams Meeting? Please "respond to all" because Beau and I are both taking some time off over the holidays and this will allow either of us to respond and keep us moving forward. Thank you!

Best,

Susan

Susan Perrell
